## EXPERIENCE

---

- **Lazarillo**  
Android Engineer  
Lazarillo is an app that enables businesses to create accessible maps for visually impaired users. Developed and maintained the main app's codebase. Streamlined app releases by utilizing continuous integration and continuous deployment (CI/CD) processes. Led the development of an Android native library that is also used by clients with hybrid apps.  
*August 2021 - Present*
- **Camello**  
Android Engineer  
Created an app using the latest Android libraries. This app utilized functionalities such as background localization and integration with an API.  
*April 2020 to September 2020 (6 months)*
- **Ediloja**  
Virtualizer  
In charge of virtualizing courses and educational material of the teachers of the Private Technical University of Loja to make it available to distance students.  
*December 2019 to April 2020 (5 months)*
- **Freelancer**  
Android Engineer  
I engineered personal projects developing Android apps for learning new technologies such as Jetpack Compose and managed projects with GitHub Actions.  
*July 2019 - Present*
